This note must be looked at in conjunction with the map of the parish and the description of the parish boundary provided by the Diocese. It is not an exhaustive list of all of the roads within the parish but gives some additional information concerning roads on the boundary of the parish. This is because the Diocese have stated that the boundary line will pass down the middle of roads, meaning that on those roads some addreses will be in the parish whilst others will be outside. This is not a matter open to interpetation by the school but is a statement of fact. It is your responsibility to determine whether you reside within the parish or not and to make your application accordingly. If you are uncertain as to whether your address is in the parish please feel free to contact the school directly for assistance before submitting your application.

Unless stated otherwise the ranges noted below are addresses that are IN the parish
