

On 22nd November 2019 we held our 'Be bright, Be seen' event to raise awareness of the important issue of road safety, especially as the evenings and mornings are getting darker now.

Our eco reps ran informative assemblies for the whole school to make everybody aware of this important issue and raise their awareness and understanding of it.

The co-op donated special 'Be bright Be safe' badges for every child in our school which was very much appreciated.

Lewisham council also donated bike lights which all the children who cycled to school got and fluorescent stickers which all the children who scooted to school that day also got.

All children wore their brightest coloured clothes to school for the day and we had great fun!
