

We hugely encourage sustainable travel and we want our school community to ensure they are safe when using their bikes so we offered a free session with Dr Bike where children were able to bring in their bikes and he would fix any problems with them to ensure they were safe to use.

Dr Bike sessions are basic repair sessions. People are encouraged to bring their bikes along with them to school and Dr Bike will check it over, do any basic repairs and adjustments that he can and advise people of what to do if there is anything more serious that they need to get repaired.

We were fortunate enough this year not to just have 1 visit from Dr Bike but to have 2 visits!

The first session was so popular that we organised a second session and this time it wasn't just for the children but parents, carers and staff also requested if they could use the service which they did and another very successful session place in our school playground.
